Dennis Brown presents Prince Jammy - Umoja/20th Century DEBwise

Blood and Fire Distribution: Border Music

Making their debut on CD, the two overlooked dub albums collected on this release celebrate the meeting at King Tubby's studio of the late Dennis Brown - in his role as producer as well as vocalist - and legendary mixing engineer Prince Jammy. Jammy works his subtle magic with 20 of the Crown Prince's superb productions of the late 1970s, including dubs to his own 'The Half' and 'Troubled World', alongside stripped down mixes of rhythms used by such as Junior Delgado, Lennox Brown and the Tamlins. This release adds a bonus dub to Dennis 'General', making a playing time of over 75 minutes. DEBwise dub in full effect.....
